**Subject:** MicrosoftSettlement

Although I think Microsoft does have dirty hands in this affair, the settlement they have proposed seems fair to all parties concerned. It is in the interest of our economy to finalize this mess and get on with business. This is a very fast changing industry and their competitors who are spending so much to fight them would do better by putting their money where it could be used to innovate! There are still many open avenues to explore! Thank you for your time! Sally McQueen
